Independent Auditors' Report

To the Board of Directors of PChome Online Inc.:

Opinion

We have audited the consolidated financial statements of PChome Online Inc. and subsidiaries ("the Group"), which comprise the consolidated statements of financial position as of December 31, 2024 and 2023, the consolidated statements of comprehensive income, changes in equity and cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of December 31, 2024 and 2023, and its consolidated financial performance and its consolidated cash flows for the year ended December 31, 2024 and 2023 in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Goodwill impairment assessment arising from investments in subsidiaries

Please refer to Note (4)(m) " impairment of non-financial assets" for the accounting policy, Note (5) for the "significant accounting estimates involved in the assessment of goodwill impairment and Note (6)(k) for the information involving impairment assessment of goodwill.

Description of key audit matter:

The amount of goodwill arising from the acquisition of the Company's subsidiaries is material, and when the assessment of impairment of goodwill measures its recoverable amount based on its value in use, the assumptions used in the assessment rely on subjective judgments of the management, which are complex and highly uncertain, and thus constitute a critical accounting estimate. Therefore, we determine the assessment of goodwill impairment as one of most significance.

KPMG, a Taiwan partnership and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee.

Audit procedures to address the matter:

Understand the process of accessing goodwill impairment by management, the reasonableness of the impairment model, and the cash generating units identified by management.

Compare management's past estimates with actual results to assess the reasonableness of management's estimates.

Assess the reasonableness of the significant assumptions used in the impairment model, including the expected growth rate and discount rate. Perform the following: (1) verify the parameters and calculation formulas of the evaluation model, (2) compare the expected growth rate with historical results, economic and industrial forecasts, and (3) engage internal experts to assist in assessing the reasonableness of the valuation model and the corresponding discount rate used by the management in estimating the value in use, and to reperform and verify the calculations.

Other Matter

PChome Online Inc. has additionally prepared its parent company only financial statements as of and for the years ended December 31, 2024 and 2023, on which we have issued an unqualified opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including the Audit Committee, are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Chen, Yi-Chun and Lien, Shu-Ling.

Notes to Readers

The accompanying consolidated financial statements are intended only to present the consolidated financial statements of financial position, financial performance and cash flows in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the International Financial Reporting Standards ("IFRSs"), International Accounting Standards ("IASs"), interpretation as well as related guidance endorsed by the Financial Supervisory Commission of the Republic of China. The standards, procedures and practices to audit such consolidated financial statements are those generally accepted and applied in the Republic of China.

The independent auditor's report and the accompanying consolidated financial statements are the English translation of the Chinese version prepared and used in the Republic of China. If there is any conflict between, or any difference in the interpretation of the English and Chinese language independent auditor's report and consolidated financial statements, the Chinese version shall prevail.

The accompanying notes are an integral part of the consolidated financial statements.

(1) Organization and Business

PChome Online Inc. (the Company) was incorporated on July 14, 1998. The primary business scope of the Company and its subsidiaries (together referred to as the Group) includes software design, digital information supply, data processing, and wholesaling and retailing of office machinery, equipment, and information software.

On August 30, 2004, the Board of Directors of the Taipei Exchange approved the Company's application for stock listing, and it became officially listed and traded on January 25, 2005.

(2) Approval Date and Procedures of the Consolidated Financial Statements

These consolidated financial statements were authorized for issuance by the Board of Directors on March 12, 2025.

(3) Adoption of New Standards, Amendments and Interpretations

(a) The impact of the International Financial Reporting Standards ("IFRS Accounting Standards") endorsed by the Financial Supervisory Commission, R.O.C. which have already been adopted.

The Group has initially adopted the following new amendments, which do not have a significant impact on its consolidated financial statements, from January 1, 2024:

- Amendments to IAS 1 "Classification of Liabilities as Current or Non-current"
- Amendments to IAS 1 "Non-current Liabilities with Covenants"
- Amendments to IAS 7 and IFRS 7 "Supplier Finance Arrangements"
- Amendments to IFRS 16 "Lease Liability in a Sale and Leaseback"

(b) The impact of IFRS Accounting Standards endorsed by the FSC but not yet effective

The Group assesses that the adoption of the following new amendments, effective for annual period beginning on January 1, 2025, would not have a significant impact on its consolidated financial statements:

- Amendments to IAS21 "Lack of Exchangeability"

(c) The impact of IFRS Accounting Standards issued by IASB but not yet endorsed by the FSC

The following new and amended standards, which may be relevant to the Group, have been issued by the International Accounting Standards Board (IASB), but have yet to be endorsed by the FSC:

Standards or Interpretations	Content of amendment	Effective date per IASB
IFRS 18 "Presentation and Disclosure in Financial Statements"	The new standard introduces three categories of income and expenses, two income statement subtotals and one single note on management performance measures. The three amendments, combined with enhanced guidance on how to disaggregate information, set the stage for better and more consistent information for users, and will affect all the entities. ● A more structured income statement: under current standards, companies use different formats to present their results, making it difficult for investors to compare financial performance across companies. The new standard promotes a more structured income statement, introducing a newly defined ' operating profit' subtotal and a requirement for all income and expenses to be allocated between three new distinct categories based on a company' s main business activities. ● Management performance measures (MPMs): the new standard introduces a definition for management performance measures, and requires companies to explain in a single note to the financial statements why the measure provides useful information, how it is calculated and reconcile it to an amount determined under IFRS Accounting Standards. ● Greater disaggregation of information: the new standard includes enhanced guidance on how companies group information in the financial statements. This includes guidance on whether information is included in the primary financial statements or is further disaggregated in the notes.	January 1, 2027

The Group is evaluating the impact on its consolidated financial position and consolidated financial performance upon the initial adoption of the abovementioned standards or interpretations. The results thereof will be disclosed when the Group completes its evaluation.

The Group does not expect the following other new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its consolidated financial statements:

- Amendments to IFRS 10 and IAS 28 "Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture"
- IFRS 17 " Insurance Contracts" and amendments to IFRS 17 " Insurance Contracts"
- IFRS 19 "Subsidiaries without Public Accountability: Disclosures"
- Amendments to IFRS 9 and IFRS 7 "Amendments to the Classification and Measurement of Financial Instruments"
- Annual Improvements to IFRS Accounting Standards—Volume 11
- Amendments to IFRS 9 and IFRS 7 "Contracts Referencing Nature-dependent Electricity"

(4) Summary of Significant Accounting Policies

The accompanying consolidated financial statements are the English translation of the Chinese version prepared and used in the Republic of China. If there is any conflict between, or any difference in the interpretation of, the English and Chinese language consolidated financial statements, the Chinese version shall prevail.

The significant accounting policies presented in the consolidated financial statements are summarized below. The following accounting policies were applied consistently throughout the periods presented in the consolidated financial statements.

(a) Statement of compliance

These consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers (hereinafter referred to as "the Regulations") and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations endorsed and issued into effect by the Financial Supervisory Commission, R.O.C. (altogether referred to " IFRS Accounting Standards" endorsed by the "FSC").

(b) Basis of preparation

1.Basis of measurement

Except for the following significant accounts, the consolidated financial statements have been prepared on a historical cost basis:

1) Financial assets at fair value through profit or loss are measured at fair value;

2) Financial assets at fair value through other comprehensive income are measured at fair value;

3) The defined benefit liabilities (assets) are measured at fair value of the plan assets less the present value of the defined benefit obligation, and the ceiling as explained in note (4)(r).

2.Functional and presentation currency

The functional currency of each Group entity is determined based on the primary economic environment in which the entity operates. The consolidated financial statements are presented in New Taiwan Dollars (NTD), which is the Company' s functional currency. All financial information presented in New Taiwan Dollars has been rounded to the nearest thousand.

(c) Basis of consolidation

1. Principle of preparation of the consolidated financial statements

The consolidated financial statements comprise the Company and subsidiaries. Subsidiaries are entities controlled by the Group. The Group 'controls' an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the abilities to affect those returns through its power over the entity.

The financial statements of the subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases. Intragroup balances and transactions, and any unrealized income and expenses arising from Intragroup transactions, are eliminated in preparing the consolidated financial statements. The Group attributes the profit or loss and each component of other comprehensive income to the owners of the parent and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance.

Accounting policies of subsidiaries have been adjusted to ensure consistency with the policies adopted by the Group.

Changes in the Group's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. Any differences between the Group' s share of net assets before and after the change, and any considerations received or paid, are adjusted to or against the Group reserves.

Upon the loss of control, the Group derecognizes the carrying amounts of the assets and liabilities of the subsidiary and non-controlling interests. Any interest retained in the former subsidiary is measured at fair value when control is lost. The gain or loss is measured as the difference between: (i) the aggregate of the fair value of the consideration received and the fair value of any retained non-controlling investment in the former subsidiary at the date when the Company losses control; and (ii) the aggregate of the carrying amount of the former subsidiary's assets (including goodwill), liabilities and non-controlling interests at the date when the Group losses control. The Group accounts for all amounts previously recognized in other comprehensive income in relation to that subsidiary on the same basis as would be required if the Group had directly disposed of the related assets or liabilities.

3. List of subsidiaries which are not included in the consolidated interim financial statements: None.

(d) Foreign currency

1. Foreign currency transaction

Transactions in foreign currencies are translated into the respective functional currencies of Group at the exchange rates at the dates of the transactions. At the end of each subsequent reporting period, monetary items denominated in foreign currencies are translated into the functional currencies using the exchange rate at that date. Non-monetary items denominated in foreign currencies that are measured at fair value are translated into the functional currencies using the exchange rate at the date that the fair value was determined. Non-monetary items denominated in foreign currencies that are measured based on historical cost are translated using the exchange rate at the date of the transaction.

2. Foreign operations

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated into the presentation currency at the exchange rates at the reporting date. The income and expenses of foreign operations, are translated into the presentation currency at the average exchange rate. Exchange differences are recognized in other comprehensive income.

When the Group disposes of any part of its interest in a subsidiary that includes a foreign operation while retaining control, the relevant proportion of the cumulative amount is reattributed to non-controlling interest. When the Group disposes of only part of investment in an affiliate of a joint venture that includes a foreign operation while retaining significant or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

When the settlement of a monetary item receivable from or payable to a foreign operation is neither planned nor likely to occur in the foreseeable future, exchange differences arising from such items are considered as part of the net investment in the foreign operation and are recognized in other comprehensive income.

(e) Classification of current and non-current assets and liabilities

An assets is classified as current under one of the following criteria, and all other assets are classified as non-current:

1. It is expected to be realized, or intended to be sold or consumed, in the normal operating cycle;

2. It is held primarily for the purpose of trading;

3. It is expected to be realized within twelve months after the reporting period; or

4. The asset is cash or a cash equivalent (as defined in IAS 7) unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is classified as current under one of the following criteria, and all other liabilities are classified as non-current:

1. It is expected to be settled in the normal operating cycle;

2. It is held primarily for the purpose of trading;

3. It is due to be settled within twelve months after the reporting period; or

4. The Group does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period.

(f) Cash and cash equivalents

Cash comprises cash on hand and demand deposits. Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. Time deposits which meet the above definition and are held for the purpose of meeting short term cash commitments rather than for investment or other purposes should be recognized as cash equivalents.

Time deposits with maturity within one year held for the purpose of meeting short-term cash commitments, rather than for investment or other purposes, are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value, and thus are recognized as cash and cash equivalents.

(g) Financial instruments

Trade receivables and debt securities issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Group becomes a party to the contractual provisions of the instrument. A financial asset (unless it is a trade receivable without a significant financing component) or financial liability not measured at fair value through profit or loss (FVTPL) is initially measured at fair value plus transaction costs that are directly attributable to its acquisition issuance. A trade receivable without a significant financing component is initially measured at the transaction price.

1. Financial assets

All purchases or sales of financial assets in the regular norm of business are recognized and derecognized on a trade date basis.

On initial recognition, a financial asset is classified as measured at: amortized cost; fair value through other comprehensive income (FVOCI) - equity; or FVTPL. Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

1) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at amortized cost, which is the amount at which the financial asset is measured at initial recognition, plus/minus, the cumulative amortization using the effective interest method, adjusted for any loss allowance. Interest income, foreign exchange gains and losses, as well as impairment, are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

2) Fair value through other comprehensive income (FVOCI)

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment' s fair value in other comprehensive income. This election is made on an investment-by-investment basis.

Equity investments at FVOCI are subsequently measured at fair value. Dividends are recognized as income in profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in other comprehensive income and are never reclassified to profit or loss.

Dividend income is recognized in profit or loss on the date on which the Group' s right to receive payment is established.

3) Fair value through profit or loss (FVTPL)

All financial assets not classified as amortized cost or FVOCI described above are measured at FVTPL, including derivative financial assets.

On initial recognition, the Group may irrevocably designate a financial asset, which meets the requirements to be measured at amortized cost or at FVOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.

4) Business model assessment

The Group makes an assessment of the objective of the business model in which a financial asset is held at the portfolio level because this best reflects the way the business is managed and information is provided to management. The information considered includes:

- the stated policies and objectives for the portfolio and the operation of those policies in practice. These include whether management's strategy focuses on earning contractual interest income, maintaining a particular interest rate profile, matching the duration of the financial assets to the duration of any related liabilities or expected cash outflows or realizing cash flows through the sale of the assets;
- how the performance of the portfolio is evaluated and reported to the Group's management;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and how those risks are managed;
- the frequency, volume and timing of sales of financial assets in prior periods, the reasons for such sales and expectations about future sales activity.

Transfers of financial assets to third parties in transactions that do not qualify for derecognition are not considered sales for this purpose, and are consistent with the Group's continuing recognition of the assets.

Financial assets that are held for trading or are managed and whose performance is evaluated on a fair value basis are measured at FVTPL.

5) Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'principal' is defined as the fair value of the financial assets on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a particular period of time and for other basic lending risks and costs, as well as a profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Group considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition. In making this assessment, the Group considers:

- contingent events that would change the amount or timing of cash flows;
- terms that may adjust the contractual coupon rate, including variable rate features;
- prepayment and extension features; and
- terms that limit the Group's claim to cash flows from specified assets (e.g. non-recourse features).

6) Impairment of financial assets

The Group recognizes loss allowances for expected credit losses (ECL) on financial assets measured at amortized cost (including cash and cash equivalents, notes and accounts receivable, other receivables and other financial assets) and accounts receivables, debt investments measured at FVOCI.

The Group measures loss allowances at an amount equal to lifetime expected credit loss (ECL), except for the following which are measured as 12-month ECL:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowance for trade receivables and contract assets are always measured at an amount equal to lifetime ECL.

Lifetime ECLs are the ECLs that result from all possible default events over the expected life of a financial instrument.

12-month ECLs are the portion of ECLs that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECLs is the maximum contractual period over which the Group is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available (without undue cost or effort). This includes both quantitative and qualitative information and analysis, based on the Group' s historical experience and informed credit assessment and including forward-looking information.

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls. The difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive. ECLs are discounted at the effective interest rate of the financial asset.

At each reporting date, the Group assesses whether financial assets carried at amortized cost and debt securities at FVOCI are credit-impaired. A financial asset is 'credit-impaired' when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets. For debt securities at FVOCI, the loss allowance is charged to profit or loss and is recognized in other comprehensive income instead of reducing the carrying amount of the asset.

The gross carrying amount of a financial asset is written off either partially or in full to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

7) Derecognition of financial assets

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group enters into transactions whereby it transfers assets recognized in its statement of balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

2. Financial liabilities and equity instruments

1) Classification of debt or equity

Debt and equity instruments issued by the Group are classified as financial liabilities or equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

2) Equity instrument

An equity instrument is any contract that evidences residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued are recognized as the amount of consideration received, less the direct cost of issuing.

3) Treasury shares

When shares recognized as equity are repurchased, the amount of the consideration paid, which includes directly attributable costs, is recognized as a deduction from equity. Repurchased shares are classified as treasury shares. When treasury shares are sold or reissued subsequently, the amount received is recognized as an increase in equity, and the resulting surplus or deficit on the transaction is recognized in capital surplus or retained earnings (if the capital suplus is not sufficient to be written down).

4) Compound financial instruments

Compound financial instruments issued by the Group comprise convertible bonds denominated in NTD that can be converted to ordinary shares at the option of the holder, when the number of shares to be issued is fixed and does not vary with changes in fair value.

The liability component of compound financial instruments is initially recognized at the fair value of a similar liability that does not have an equity conversion option. The equity component is initially recognized at the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. Any directly attributable transaction costs are allocated to the liability and equity components in proportion to their initial carrying amounts.

Subsequent to the initial recognition, the liability component of a compound financial instrument is measured at amortized cost using the effective interest method. The equity component of a compound financial instrument is not remeasured.

Other interest related to the financial liability is recognized in profit or loss. On conversion at maturity, the financial liability is reclassified to equity and no gain or loss is recognized.

5) Financial liabilities

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

6) Derecognizing of financial liabilities

The Group derecognizes a financial liability when its contractual obligation has been discharged or cancelled or expires. The Group also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount of a financial liability extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

7) Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount presented in the statement of balance sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

(h) Inventories

Inventories are measured at the lower of cost or net realizable value. The cost of inventories consists of all costs of purchase and other costs incurred in bringing the inventories to a salable and useable location and condition. Inventory cost is calculated using the weighted-average-cost formula.

Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses.

(i) Investment in affiliates

Affiliates are those entities in which the Group has significant influence, but not control or joint control, over their financial and operating policies.

Investments in affiliates are accounted for using the equity method and are recognized initially at cost. The cost of the investment includes transaction costs. The carrying amount of the investment in affiliates includes goodwill arising from the acquisition less any accumulated impairment losses.

The consolidated financial statements include the Group' s share of the profit or loss and other comprehensive income of those affiliates, after adjustments to align their accounting policies with those of the Group, from the date on which significant influence commences until the date on which significant influence ceases. The Group recognizes any changes, of its proportionate share in the investee within capital surplus, when an affiliate' s equity changes due to reasons other than profit and loss or comprehensive income, which did not result in changes in actual proportionate share.

Gains and losses resulting from transactions between the Group and an affiliate are recognized only to the extent of unrelated Group's interests in the affiliate.

When the Group' s share of losses of an affiliate equals or exceeds its interests in an affiliate, it discontinues recognizing its share of further losses. After the recognized interest is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the affiliate.

The Group discontinues the use of the equity method and measures the retained interest at fair value from the date when its investment ceases to be an affiliate. The difference between the fair value of retained interest and proceeds from disposing, and the carrying amount of the investment at the date the equity method was discontinued is recognized in profit or loss. The Group accounts for all the amounts previously recognized in other comprehensive income in relation to that investment on the same basis as would have been required if the affiliates had directly disposed of the related assets or liabilities. If a gain or loss previously recognized in other comprehensive income would be reclassified to profit or loss (or retained earnings) on the disposal of the related assets or liabilities, the Group reclassifies the gain or loss from equity to profit or loss (as a reclassification adjustment) (or retained earnings) when the equity method is discontinued. If the Group's ownership interest in an affiliate is reduced while it continues to apply the equity method, the Group reclassifies the proportion of the gain or loss that had previously been recognized in other comprehensive income relating to that reduction in ownership interest to profit or loss.

(j) Property, plant, and equipment

1. Recognition and measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

2. Subsequent cost

Subsequent expenditure is capitalized only when it is probable that future economic benefits associated with the expenditure will flow to the Group.

3. Depreciation

Depreciation is calculated on the cost of an asset less its residual value and is recognized in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment.

The estimated useful lives of property, plant and equipment for current and comparative periods are as follows:

1) Transportation equipment	2 ~ 8 years
2) Storage equipment	3 ~15 years
3) Furniture and office equipment	3 ~ 7 years
4) Leasehold improvements	1 ~15 years
5) Other equipment	5 years

The depreciation methods, useful lives, and residual values are reviewed at each reporting date and adjusted if appropriate.

(k) Leases

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

1. As a lessee

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be reliably determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

1) fixed payments, including in-substance fixed payments;

2) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;

3) amounts expected to be payable under a residual value guarantee; and

4) payments for purchase or termination options that are reasonably certain to be exercised.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when:

1) there is a change in future lease payments arising from the change in an index or rate; or

2) there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee; or

3) there is a change of its assessment on a purchase option; or

4) there is a change of its assessment on whether it will exercise an extension or termination option; or

5) there is any lease modifications

When the lease liability is remeasured, other than lease modifications, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

When the lease liability is remeasured to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease, the Group accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize in profit or loss any gain or loss relating to the partial or full termination of the lease.

The Group presents right-of-use assets that do not meet the definition of investment and lease liabilities as a separate line item respectively in the statement of financial position.

The Group has elected not to recognize right-of-use assets and lease liabilities for short-term leases of machinery that have a lease term of 12 months or less and leases of low-value assets. The Group recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

As a practical expedient, the Group elects not to assess all rent concessions that meets all the conditions as follows are lease modifications or not:

1) the change in lease payments that resulted in revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease immediately preceding the change;

2) any reduction in lease payments that affects only those payments originally due on, or before, June 30, 2022;

3) and there is no substantive change in other terms and conditions of the lease.

In accordance with the practical expedient, the effect of the change in the lease liability is reflected in profit or loss in the period in which the event or condition that triggers the rent concession occurs.

2. As a lessor

When the Group acts as a lessor, it determines at lease commencement whether each lease is a finance lease or an operating lease. To classify each lease, the Group makes an overall assessment of whether the lease transfers to the lessee substantially all of the risks and rewards of ownership incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then the lease is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

When the Group is an intermediate lessor, it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease. If a head lease is a short-term lease to which the Group applies the exemption described above, then it classifies the sub-lease as an operating lease.

If an arrangement contains lease and non-lease components, the Group applies IFRS15 to allocate the consideration in the contract.

The Group recognizes a finance lease receivable at an amount equal to its net investment in the lease. Initial direct costs, such as lessors to negotiate and arrange a lease, are included in the measurement of the net investment. The lessor recognizes the interest income over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. The Group recognizes lease payments received under operating leases as income on a straight-line basis over the lease term as part of 'other income'.

(l) Intangible assets

1. Goodwill

Goodwill arising from the acquisition of subsidiaries, is the excess of the cost of acquisitions over the fair value of the identifiable net assets, and it is measured at cost, less accumulated impairment losses.

2. Recognition and measurement

Other intangible assets, including software, that are acquired by the Group and have finite useful lives are measured at cost less accumulated amortization and any accumulated impairment losses.

3. Subsequent expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognized in profit or loss as incurred.

4. Amortization

Amortization is calculated over the cost of the asset, less its residual value, and is recognized in profit or loss on a straight-line basis over the estimated useful lives of intangible assets, other than goodwill, from the date that they are available for use.

The estimated useful lives for current and comparative periods are as follows:

1) Software	2 ~ 5 years
2) Distribution Relationship	9 years
3) Others	9 ~15 years

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

(m) Impairment of non-financial assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than inventories, contract assets, deferred tax assets and investment properties and biological assets, measured at fair value, less costs) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill is tested annually for impairment.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs. Goodwill arising from a business combination is allocated to CGUs or groups of CGUs that are expected to benefit from the synergies of the combination.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

(n) Provision

A provision is recognized if, as a result of a past event, the Company has a present obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as interest expense.

In accordance with the lease contract requirements, the Company has made provisions for restoration liabilities for the leased premises and has recognized the related expenses during the lease term.

(o) Revenue

Revenue from contracts with customers

Revenue is measured based on the consideration to which the Group expects to be entitled in exchange for transferring goods or services to a customer. The Group recognizes revenue when it satisfies a performance obligation by transferring control of a good or a service to a customer. The accounting policies for the Group's main types of revenue are explained below.

1) Sale of goods - consumer electronics

The Group recognizes revenue when a customer takes possession of the product. Payment of the transaction price is due immediately when the customer purchases the product.

The Group grants its customers the right to return the product. Therefore, the Group reduces revenue by the amount of expected returns and recognizes a refund liability and a right to the returned goods. Accumulated experience is used to estimate such returns at the time of sale at a portfolio level (expected value method). Because the number of products returned has been steady for years, it is highly probable that a significant reversal in the cumulative revenue recognized will not occur. At each reporting date, the Group reassesses the estimated amount of expected returns.

2) Services

The Group provides platform and management services. Revenue from providing services is recognized in the accounting period in which the services are rendered. For fixed-price contracts, revenue is recognized based on the actual service provided to the end of the reporting period as a proportion of the total services to be provided. The proportion of services provided is determined based on the work performed to date as a proportion of the total work which should be performed.

Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by the management.

3) Interest revenue from installment transactions

The Group runs the business of selling installments. The amount of the sales price exceeds cash sales has been recognized as unrealized interest revenue, and it has been recognized periodically as interest revenue from installment transactions using the interest method.

(p) Employee benefits

1. Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided.

2. Defined benefit plans

The Group's net obligation in respect of defined benefit plans is calculated separately for each the plan by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Group, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income, and accumulated in retained earnings within equity. The Group determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset). Net interest expense and other expenses related to defined benefit plans are recognized in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit or loss. The Group recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

3. Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(q) Share-based payment

The grant-date fair value of equity-settled share-based payment arrangements granted to employees is generally recognized as an employee expense, with a corresponding increase in equity, over the vesting period of the awards. The amount recognized as an expense is adjusted to reflect the number of awards which related service and non-market performance conditions are expected to be met, such that the amount ultimately recognized as an expense is based on the number of awards that meet the related service and non-market performance conditions at the vesting date.

For share-based payment awards with non-vesting conditions, the grant-date fair value of the share-based payment is measured to reflect such conditions and there is no true-up for differences between expected and actual outcomes.

(r) Income taxes

Income taxes comprise current taxes and deferred taxes. Except for expenses related to business combinations or recognized directly in equity or other comprehensive income, all current and deferred taxes are recognized in profit or loss.

The Group has determined that interest and penalties related to income taxes, including uncertain tax treatment, do not meet the definition of income taxes, and therefore accounted for them under IAS37.

Current taxes comprise the expected tax payables or receivables on the taxable profits (losses) for the year and any adjustment to the tax payable or receivable in respect of previous years. The amount of current tax payables or receivables are the best estimate of the tax amount expected to be paid or received that reflects uncertainty related to income taxes, if any. It is measured using tax rates enacted or substantively enacted at the reporting date.

Deferred taxes arise due to temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases.

Deferred taxes are measured at tax rates that are expected to be applied to temporary differences when they reserve, using tax rates enacted or substantively enacted at the reporting date, and reflect uncertainty related to income taxes, if any.

Deferred tax assets are recognized for the carry forward of unused tax losses, unused tax credits, and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realized; such reductions are reversed when the probability of future taxable profits improves.

(s) Business combination

The Group accounts for business combinations using the acquisition method. The goodwill arising from an acquisition is measured as the excess of the consideration transferred (which is generally measured at fair value) and the amount of non-controlling interest in the acquiree, both over the identifiable net assets acquired at the acquisition date. If the amount calculated above is a negative balance, the Group recognizes that amount as a gain on a bargain purchase in profit or loss immediately after reassessing whether it has correctly identified all of the assets acquired and all of the liabilities assumed.

All acquisition-related transaction costs are expensed as incurred, except for the issuance of debt or equity instruments.

For each business combination, the Group measures any non-controlling interests in the acquiree, either at fair value or at the non-controlling interest' s proportionate share of the acquiree' s identifiable net assets, if the non-controlling interests are present ownership interests and entitle their holders to a proportionate share of the acquiree' s net assets in the event of liquidation. Other components of non-controlling interests are measured at their acquisition-date fair values, unless another measurement basis is required by the IFRSs endorsed by the FSC.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the provisional amounts for the items for which the accounting is incomplete are reported in the Group' s financial statements. During the measurement period, the provisional amounts recognized at the acquisition date are retrospectively adjusted, or additional assets or liabilities are recognized to reflect new information obtained about facts and circumstances that existed as of the acquisition date. The measurement period will not exceed one year from the acquisition date.

(t) Earnings per share

The Group discloses the Company' s basic and diluted earnings per share attributable to ordinary shareholders of the Company. Basic earnings per share is calculated as the profit attributable to the ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding.

Diluted earnings per share is calculated as the profit attributable to ordinary shareholders of the Company divided by the weighted average number of ordinary shares outstanding after adjustment for the effects of all potential dilutive ordinary shares, such as convertible bonds and employee compensation.

(u) Operating segments

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the Group). Operating results of the operating segment are regularly reviewed by the Group's chief operating decision maker to make decisions about resources to be allocated to the segment and to assess its performance. Each operating segment consists of standalone financial information.

(5) Significant Accounting Assumptions, Judgments and Main Sources of Estimation Uncertainty

In preparing these consolidated financial statements, management has made judgments and estimates about the future, including climate-related risks and opportunities, that affect the application of the accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis and are consistent with the Group's risk management and climate-related commitments where appropriate. Revisions to estimates are recognized prospectively in the period of the change and future periods.

Information about judgments made in applying accounting policies that have the most significant effects on the amounts recognized in the consolidated financial statements is as follows:

Judgment regarding control of affiliates

As of December 31, 2024 and 2023, the Group held less than half of the voting rights of 21st Financial Technology Co., Ltd. and 21st Century Technology Co., Ltd. However, considering that it obtained more than half of the directors of 21st Financial Technology Co., Ltd. and 21st Century Technology Co., Ltd., plus that the of other shareholders in previous shareholders' meeting indicated that the Group had the actual ability to direct relevant activities, the Group considers 21st Financial Technology Co., Ltd. and 21st Century Technology Co., Ltd. as its subsidiaries.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year is as follows:

(a) Impairment of trade receivable

When there is objective evidence of impairment loss, the Group takes into consideration the estimation of future cash flows. The amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding possible future credit losses) discounted at the financial asset's original effective interest rate. Where the actual future cash flows are less than expected, a material impairment loss may arise.

(b) Impairment of goodwill

The assessment of impairment of goodwill requires the Group to make subjective judgments to identify cash-generating units, allocate the goodwill to relevant cash-generating units, and estimate the recoverable amount of relevant cash-generating units. The uncertainty related to the recoverable amount will impact the assessment on whether impairment has occurred. Refer to Note (6)(k) for further description of the impairment of goodwill.

(6) Explanation to Significant Accounts

(a) Cash and cash equivalents

	2024.12.31	2023.12.31
Cash on hand	$ 1,086	2,174
Checking accounts	31,329	39,909
Savings accounts	2,761,691	3,397,964
Foreign currency deposits	47,889	36,048
Time deposits	734,020	753,983
Cash equivalents	4,222	33,242
Cash and cash equivalents in consolidated statement of cash flows	**$ 3,580,237**	**4,263,320**

Please refer to Note (6)(z) for the interest analysis and sensitivity analysis of the financial assets and liabilities of the Group.

(b) Non-current financial assets measured at fair value through profit or loss

	2024.12.31	2023.12.31
Mandatorily measured at fair value through profit or loss:		
Non-derivative financial assets		
Preferred stocks	$ 377,772	342,903
Simple Agreement for Future Equity (SAFE)	82,152	87,096
Total	**$ 459,924**	**429,999**

1. The Group holds preferred stocks issued by domestic and foreign unlisted companies, all of which are non-cumulative preferred stocks with shareholder voting rights, and the dividends are paid at the agreed annual rate, which is adjusted and reset periodically in accordance with the agreed period. Most of the shares have the liquidation preference. According to the ranking order of the preferred stocks, if the targets must be liquidated while the Group holds their preferred stocks, the Group will have the opportunity to get the dividends which are same as the investment amount.
2. The Simple Agreement for Future Equity (SAFE) held by the Group will be converted into preferred stocks when certain conditions stated in the agreements are met.
3. Relevant information for the price risk please refer to Note (6)(z).
4. Abovementioned financial assets measured at fair value through profit or loss had not been pledged as collateral.

(c) Non-current financial assets measured at fair value through other comprehensive income

	2024.12.31	2023.12.31
Equity investments at fair value through other comprehensive income:		
Stocks unlisted on domestic and foreign markets - common stock	$ 482,220	581,505
Stocks unlisted on domestic and foreign markets - preferred stock	233,740	278,078
Total	**$ 715,960**	**859,583**

1. The Group holds these equity instruments for long-term strategic purposes, and not for trading. As such, they are designated as measured at fair value through other comprehensive income.
2. For the relevant information about preferred stocks that are held by the Group, please refer to Note (6)(b).
3. For the market price risk, please refer to Note (6)(z). For the credit risk and the market risk, please refer to Note (6)(aa).
4. During January 1 to December 31, 2023, the Group disposed of its investment in Syspower Corporation at $28,916 thousand and reclassified the cumulative gain of $7,828 thousand into retained earnings.
5. Abovementioned financial assets at fair value through other comprehensive income of the Group had not been pledged as collateral.

(d) Notes and accounts receivables, other receivables and long-term receivables

	2024.12.31	2023.12.31
Notes receivable - measured as amortized cost	$ -	41
Trade receivable - measured as amortized cost	2,102,707	2,466,778
Trade receivable - measured at fair value through other comprehensive income	3,005,165	2,574,996
Other receivables - measured as amortized cost	1,134,166	1,478,163
Finance lease receivable - Rental expense	196,566	4,808
Finance lease receivable - Merchandise	90,200	100,163
Less: Allowance for impairment losses	(167,708)	(138,480)
Less: Unrealized interest revenue	(757,129)	(845,290)
	$ 5,603,967	**5,641,179**
Current	$ 4,536,893	4,953,662
Non-current	1,067,074	687,517
	$ 5,603,967	**5,641,179**

The Group applies the simplified approach to provide for its expected credit losses, i.e. the use of lifetime expected loss provision for all receivables. To measure the expected credit losses, all receivables have been grouped based on shared credit risk characteristics and the days past due, as well as the incorporated forward-looking information, including macroeconomic and relevant industry information. The expected credit losses except for 21st Century Digital Technology Co., Ltd., were determined as follows:

	2024.12.31		
	Gross carrying amount	Weighted-average loss rate	Allowance for expected credit losses
Current	$ 1,806,775	0%~0.00003%	4
Less than 180 days past due	3,456	10%	13
Over 181 days past due	8,053	25%~100%	7,602
	$ 1,818,284		**7,619**

	2023.12.31		
	Gross carrying amount	Weighted-average loss rate	Allowance for expected credit losses
Current	$ 2,100,971	0%~0.169%	22
Less than 180 days past due	8,265	10%	455
Over 181 days past due	13,783	25%~100%	7,727
	$ 2,123,019		**8,204**

The expected credit losses of the Group's subsidiary, 21st Century Digital Technology Co., Ltd., were determined as follows:

	2024.12.31		
	Gross carrying amount	Weighted-average loss rate	Allowance for expected credit losses
Current	$ 3,496,615	0%~2.97%	100,355

Please refer to Note (4)(c) for other related information.

3.Goodwill impairments

According to IAS 36, the impairment test for goodwill acquired by a business combination should be conducted at least annually. The impairment test involves allocating goodwill to cash-generating units that are expected to benefit from the consolidated synergy, and assessing whether the impairment of goodwill is required to be included in the calculation of the value-in-use of each cash-generating unit and the carrying amount of net assets.

According to the analysis report on the valuation of equity issued by experts engaged by the Group in 2024 and 2023, the recoverable amounts of each cash generating unit were greater than the book value. Thus, no impairment loss was recognized.

The recoverable amount of each cash generating unit is determined on the basis of value in use assessed by the independent appraiser, which is calculated based on the financial projections of cash flows prepared by management. The key assumptions used in estimating the value in use are as follows:

	2024.12.31	2023.12.31
Discount rate	4.74%~23.28%	5.58%~22.38%

Some leases include an option to renew the lease for an additional period of the same duration after the end of the contract term.

(r) Employee benefits

1. Defined benefit plans

Reconciliation of defined benefit obligation at present value and plan asset at fair value are as follows:

	2024.12.31	2023.12.31
Present value of defined benefit obligation	$ 15,673	20,350
Fair value of plan assets	(61,843)	(55,322)
Net defined benefit assets	$ (46,170)	(34,972)

The Group makes defines benefit plan contributions to the pension fund account at Bank of Taiwan that provides pensions for employees upon retirement. The plans (covered by the Labor Standards Law) entitle a retired employee to receive an annual payment based on years or service and average salary for the six months prior to retirement.

1) Composition of plan assets

The Group allocates pension funds in accordance with the Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund, and such funds are managed by the Bureau of Labor Funds, Ministry of Labor. With regard to the utilization of the funds, minimum earnings shall be no less than the earnings attainable from two-year time deposits with interest rates offered by local bank.

The Group's pension reserve account in Bank of Taiwan amounted to $61,843 thousand at the end of the reporting period. For information on the utilization of the labor pension fund assets including the asset allocation and yield of the fund, please refer to the website of the Bureau of Labor Funds, Ministry of Labor.

2) Movements in present value of the defined benefit obligations

The movements in present value of defined benefit obligations for the Group were as follows:

		2024	2023
Defined benefit obligation at January 1	$	20,350	22,358
Current service costs and interest		380	447
Remeasurement on the net defined benefit liabilities (assets)			
─Actuarial (gain) loss from experience adjustments		(1,900)	136
─Actuarial (gain) loss arising from changes in financial assumptions		(265)	363
Past service costs and gain on settlements		(2,892)	-
The effect of business combination		-	(2,954)
Defined benefit obligation at December 31	**$**	**15,673**	**20,350**

3) Movements of defined benefit plan assets

The Group's movements in present value of defined benefit obligations for the years ended December 31, 2024 and 2023 were as follows:

		2024	2023
Fair value of plan assets at January 1	$	55,322	56,159
Interest income		1,045	1,132
Remeasurement on the net defined benefit liabilities (assets)			
─Return on plan assets (excluding interest income)		4,748	59
Contribution made		728	926
Benefit paid		-	(2,954)
Fair value of plan assets at December 31	**$**	**61,843**	**55,322**

4) Expenses recognized in profit or loss

The expenses recognized in profit or loss for the Group were as follows:

		2024	2023
Past service costs	$	(2,892)	-
Net interest of net defined benefit assets		(664)	(685)
	$	**(3,556)**	**(685)**

5) Actuarial assumptions

The following are the Group's principal actuarial assumptions of Present Value of defined benefit obligations:

	2024	2023
Discount rate	2.000%	1.875%
Future salary increase rate	3.000%	3.000%

The expected allocation payment made by the Group to the defined benefit plans for the one-year period after the reporting date was $653 thousand.

The weighted average duration of the defined benefit plans is 14.78 years.

6) When calculating the present value of the defined benefit obligations, the Group uses judgments and estimations to determine the actuarial assumptions, including discount rate and future salary changes, as of the financial statement date. Any changes in the actuarial assumptions may significantly impact the amount of the defined benefit obligations.

7) Sensitivity analysis

As of December 31, 2024 and 2023, the changes in the principal actuarial assumptions will impact on the present value of the defined benefit obligation were as follows:

	Influences of defined benefit obligations	
	Increased 0.25%	Decreased 0.25%
December 31, 2024		
Discount rate	(515)	535
Future salary increase rate	521	(504)
December 31, 2023		
Discount rate	(718)	748
Future salary increase rate	728	(703)

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions remain constant, would have affected the defined benefit obligation by the amounts shown above. In practice, changes of assumptions may link to each other. The method used in the sensitivity analysis is consistent with the calculation of Net defined benefit liabilities in the balance sheets.

There is no change in the method and assumptions used in the preparation of sensitivity analysis for 2024 and 2023, respectively.

2. Defined contribution plans

The Group allocates 6% of each employee's monthly wages to the Labor Pension Personal Account at the Bureau of Labor Insurance in accordance with the provisions of the Labor Pension Act. Under these defined contribution plans, the Group allocates a fixed amount to the Bureau of Labor Insurance without additional legal or constructive obligation to pay.

For the years ended December 31, 2024 and 2023, the Group set aside $88,104 thousand and $93,963 thousand, respectively, under the pension plan to the Bureau of the Labor Insurance.

(s) Income taxes

(t) Capital and other equity

1. Issuance of common stock

As of December 31, 2024 and 2023, the total value of nominal ordinary shares amounted to $2,500,000 thousand and $2,000,000 thousand. The face value of each share is $10. There were 143,953 thousand ordinary shares issued, respectively. (including the issuance of the employee restricted shares amounted to 319 thousand shares as of December 31, 2024 and 2023, respectively.) All issued shares were paid up upon issuance.

On September 17, 2021, as resolved by the board of directors, common shares were issued at a private offering price of $106.65 per share, in a quantity of 10,000 thousand shares with a par value of $10 per share. The private offering cut-off date was set on October 1, 2021. In actuality, $10 thousand shares were issued, and the relevant changes in registration have been completed.

The transfer of the aforementioned privately offered common shares, along with any subsequent gratis allotment of shares, is subject to the provisions stipulated under Article 43-8 of the Securities Exchange Act. Furthermore, a declaration for the supplementary public offering and listing on the over-the-counter market shall only be initiated after a period of three years from the date of delivery of the privately offered common share (November 18, 2021), in compliance with the relevant regulations and laws.

On February 21, 2023, the Board of Directors resolved to issue 16,000 thousand common shares at a price of $40.1 per share, and par value per share is $10, as totaling $641,600 thousand. The Company has received approval from the Financial Supervisory Commission in the letter No. 1120345634 on June 20, 2023, for this capital increase. The relevant statutory registration procedures have since been completed.

On December 19, 2024, it was resolved in a special shareholders' meeting to approve a maximum private placement of 64,694 thousand common shares to raise capital. Please refer to Note (11).

2. Capital surplus

The balances of capital surplus were as follows:

		2024.12.31	2023.12.31
Additional paid-in capital	$	3,114,669	3,114,669
Conversion of bonds		119,798	119,798
Difference between consideration and carrying amount of subsidiaries acquired or disposed		1,211,314	1,714,997
Changes in equity of subsidiaries		471,408	475,645

Share based compensation - treasury shares		2,138	2,138
Total	**$**	**5,052,998**	**5,560,918**

According to the R.O.C. Company Act, capital surplus can only be used to offset a deficit, and only the realized capital surplus can be used to increase the common stock or be distributed as cash dividends. The aforementioned realized capital surplus includes capital surplus resulting from premium on issuance of capital stock and earnings from donated assets received. According to the Regulations Governing the Offering and Issuance of Securities by Securities Issuers, capital increases by transferring capital surplus in excess of par value should not exceed 10% of the total common stock outstanding.

3. Retained earnings

The Company’s article of incorporation stipulate that Company’s net earnings should first be used to offset the prior years' deficit, if any, before paying any income taxes. Of the remaining balance, 10% is to be appropriated as legal reserve. However, this restriction is not applied when the legal reserve has reached the paid-in capital of the Company; In addition, according to the operation needs of the Company and the provisions of laws and regulations, if there is a balance of the special surplus reserve, priority may be given to the distribution of dividends of the special shares of the current year. And then any remaining profit together with any undistributed retained earnings shall be distributed according to the distribution plan proposed by the board of directors and submitted to the shareholders’ meeting for proposal.

The Company may explicitly stipulate in the Articles of Incorporation to authorize the distributable dividends and bonuses in whole or in part may be paid in cash after a resolution has been adopted by a majority vote at a meeting of the board of directors attended by two-thirds of the total number of directors; and in addition thereto a report of such distribution shall be submitted to the shareholders’ meeting.

The Company adopts the residual dividend policy; the residual earnings will be distributed by cash dividends before the Company fulfills the funding needs, and the ratio for stock dividend shall not exceed 80% of the total distribution. The amount, type and ratio of such dividend distribution, may be approved by the Board of Directors based on the actual profit and financial situation of the current year and submitted to the shareholders' meeting for decision.

1) Legal reserve

When a company incurs no loss, it may, pursuant to a resolution by a shareholders' meeting, distribute its legal reserve by issuing new shares or by distributing cash, and only the portion of legal reserve which exceeds 25% of capital may be distributed.

2) Earnings distribution

The Board of Directors of the Company resolved not to distribute dividends for 2023 and 2022 on March 19, 2024 and March 20, 2023, respectively. The offsetting of deficit for 2023 and 2022 was approved in the shareholders' meetings on June 19, 2024 and June 28, 2023, respectively. Relevant information is available on the Market Observation Post System website.

4. Treasury shares

On March 16, 2021, the Board of Directors of the Company resolved to repurchase its ordinary shares from the centralized securities exchange market, in order to transfer to employees, at price between $60 and $110 per share, in accordance with the requirements under section 28(2) of the Securities and Exchange Act. The issuance of the employee restricted shares amounting to 1,100 thousand shares with par value of $10 per share, was approved by the board of directors of the Group on September 29, 2020. This issuance of the employee restricted shares had received approval and was taken effect by the Financial Supervisory Commission on September 11, 2020, and October 22, 2020, was the base date for the capital increase.

Employees who are granted the above-mentioned employee restricted shares and continue to work in the Group for one year, two years and three years from the date of acquisition can receive 40%, 30% and 30% of employee restricted shares, respectively. The employees who are allocated the employee restricted shares, they should deliver the shares to the Group's designated institutional trust for safekeeping before they meet the vested conditions. The shares shall not be sold, pledged, transferred, gifted or otherwise dispensed. During the period which the shares are delivered to the trust for safekeeping, the voting rights of the shareholders meeting shall be vested in the trust. The custodial institution shall implement it in accordance with relevant laws and regulations. If the employees who are granted the above-mentioned restricted employee rights do not meet the acquired conditions after obtaining the new shares, their shares shall be fully recovered and canceled by the Group.

As of December 31, 2024, the employees who were granted the above-mentioned restricted employee rights but did not meet the acquired conditions their shares have been recovered, and canceled by the Company amounting to 781 thousand shares. The relevant statutory registration procedures have been completed.

The Group does not expect that the cash flows included in the maturity analysis could occur significantly earlier or in significantly different amounts.

3. Currency risk

1) Currency risk exposure

The Group's significant exposure to foreign currency risk was as follows:

	2024.12.31			2023.12.31		
	Foreign currency (thousands of dollars)	Exchange rate	TWD	Foreign currency (thousands of dollars)	Exchange rate	TWD
Financial assets						
Monetary items						
USD	$ 1,445	32.79	47,379	2,491	30.69	76,510
JPY	137,452	0.2099	28,865	47,832	0.2173	10,394
Financial liabilities						
Monetary items						
USD	-	32.79	5	239	30.69	7,349

2) Sensitivity analysis

The Group' s exposure to foreign currency risk arises from the translation of the foreign currency exchange gains and losses on cash and cash equivalents, other receivables, and accounts payable that are denominated in foreign currency.

A 5% appreciation or depreciation of the TWD against the USD and JPY as of December 31, 2024 and 2023, would have increased or decreased loss before tax by $3,812 thousand and $3,978 thousand, respectively. This analysis assumes that all other variables remain constant. The analysis is performed on the same basis for the years ended December 31, 2024 and 2023.

Due to the variety of functional currency, the Group disclosed the foreign currency gain or loss on monetary items aggregately. For the years ended December 31, 2024 and 2023, the foreign exchange gain (including realized and unrealized) were $2,991 thousand and $11,781 thousand, respectively.

3) Interest analysis

The interest rate exposure of the Group's financial assets and liabilities is described in Note (6)(z) on liquidity risk management.

The following sensitivity analysis is based on the exposure to the interest rate risk of financial assets and liabilities on the reporting date.

If the interest rate had increased or decreased by 0.1%, the Group's loss before tax would have increased or decreased by $3,529 thousand and $2,548 thousand for the years ended December 31, 2024 and 2023, respectively, with all other variable factors remaining constant. This is mainly due to the Group's deposits and borrowings at variable rates.

4. Other market price risk

For the years ended December 31, 2024 and 2023, the sensitivity analyses for the changes in the securities price at the reporting date were performed using the same basis for profit or loss as illustrated below:

	For the years ended December 31,			
	2024		2023	
Prices of securities at the reporting date	Other comprehensive income before tax	Profit or loss before tax	Other comprehensive income before tax	Profit or loss before tax
Increasing 1%	$ 7,160	3,778	8,596	3,429
Decreasing 1%	(7,160)	(3,778)	(8,596)	(3,429)

5. Fair value of financial instruments

1) Fair value hierarchy

The carrying amount and fair value of the Group's financial assets, including the information on fair value hierarchy were as follows:

	2024.12.31				
		Fair Value			
	Book Value	Level 1	Level 2	Level 3	Total

2) Valuation techniques for financial instruments measured at fair value

Non-derivative financial instruments

The financial instruments held by the Group are regarded as non-quoted price of the equity instruments. The fair value of the financial instruments is estimated by the comparable listed company market approach. The major assumption is measured by the multiplier which is derived from comparable listed company market approach. The effect of the estimation has been adjusted by the lack of market liquidity discounted rate. Another portion of equity instruments is measured based on the valuation techniques generally accepted by market participants such as the discounted cash flow or option pricing models.

3) Reconciliation of Level 3 fair values

		Fair value through profit or loss	Fair value through other comprehensive income
Opening balance, January 1, 2024	$	429,999	859,583

For the years ended December 31, 2024 and 2023, the total gains and losses that were included in "other gains and losses" and "unrealized gains and losses from fair value through other comprehensive income" were as follows:

		2024	2023
Total gains and losses recognized:			
Recognized as profit or loss	$	(790)	(3,266)
Recognized as unrealized gains and losses from fair value through other comprehensive income		(179,679)	96,909

4) Quantified information on significant unobservable inputs (Level 3) used in fair value measurement

The Group' s financial instruments that use Level 3 inputs to measure fair value include "financial assets measured at fair value through profit or loss – derivative financial instruments" and "fair value through other comprehensive income available-for-sale financial assets – equity investments".

Most of the Group's financial instruments categorized as Level 3 and have only one significant unobservable input. Derivative financial instruments and equity investments, which have no active market price, have more than one significant unobservable inputs, and those inputs have no correlation between each other.

Quantified information of significant unobservable inputs was as follows:

Item	Valuation technique	Significant unobservable inputs	Inter-relationship between significant unobservable inputs and fair value measurement
Fair value through profit or loss – Equity and debt investments without an active market, SAFE	Comparable listed company market approach and Option Pricing Method	·Market value multiple (0.826~11.21and 0.89~11.54 as of December 31, 2024 and 2023, respectively.) ·Liquidity discounted rate (11.52%~30% and 11.38%~30% as of December 31, 2024 and 2023, respectively.)	·The estimated fair value would increase if the market value multiple were higher. ·The estimated fair value would decrease if the lack of liquidity discounted rate were higher.
	Discounted cash flow Method	·Weighted average cost of capital (14.74% as of December 31, 2023.)	·The estimated fair value would decrease if the weighted average cost of capital were higher.
Fair value through other comprehensive income – Equity investments without an active market	Comparable listed company market approach and Option Pricing Method	·Market value multiple (0.99~17.73 and 0.84~17.84 as of December 31, 2024 and 2023, respectively.) ·Liquidity discounted rate (8.61%~30% and 2.42%~48.08% as of December 31, 2024 and 2023, respectively.)	·The estimated fair value would increase if the market value multiple were higher. ·The estimated fair value would decrease if the lack of liquidity discounted rates were higher. ·The estimated fair value would decrease if the weighted average cost of capital were higher.
	Discounted cash flow Method	·Weighted average cost of capital (10.92%~11.22% and 10.77%~11.23% as of December 31, 2024 and 2023, respectively.)	

5) Fair value measurements in Level 3 – sensitivity analysis of reasonably possible alternative assumptions

Sensitivity analysis for fair values of financial instruments using Level 3 Inputs, the Group's fair value measurement on financial instruments is reasonable. However, the measurement would be different if different valuation models or valuation parameters are used. For financial instruments using level 3 inputs, the impact on the net income or loss and other comprehensive income or loss will be as follows if the valuation parameters changed:

			Profit or loss		Other comprehensive income	
	Input	Variation	Favor-able	Unfavor-able	Favor-able	Unfavor-able
December 31, 2024						
Financial assets at fair value through profit or loss						
Equity investments without an active market	P/S ratio etc.	5%	$ 18,889	(18,889)	-	-

Financial assets at fair value through other comprehensive income						
Equity investments without an active market	Market value multiple	5%	-	-	21,946	(22,002)
〃	Liquidity discounted rate	5%	-	-	15,517	(15,509)
			$ 22,996	**(22,996)**	**37,463**	**(37,511)**
December 31, 2023						
Financial assets at fair value through profit or loss						
Equity investments without an active market	P/S ratio etc.	5%	$ 17,145	(17,145)	-	-
Simple Agreement for Future Equity (SAFE)	P/S ratio etc.	5%	4,355	(4,355)	-	-
Financial assets at fair value through other comprehensive income						
Equity investments without an active market	Market value multiple	5%	-	-	35,936	(35,204)
〃	Liquidity discounted rate	5%	-	-	48,122	(48,025)
			$ 21,500	**(21,500)**	**84,058**	**(83,229)**

The favorable and unfavorable effects represent the changes in fair value, and fair value is based on a variety of unobservable inputs calculated using a valuation technique. The analysis above only reflects the effects of changes in a single input, and it does not include the interrelationships with another input.

(aa) Financial risk management

1. Summary

The Group's use of financial instruments is exposed to the credit, liquidity and market risks.

This note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk. Further quantitative disclosures are included throughout these consolidated financial statements.

2. Risk management framework

The Chief Exeutive Officer' s office has responsibility for the development and control of the Group's risk management policies and regularly reports to the Board on its operation, if necessary.

The Group establishes risk management policies for the identification and analysis of the Group's exposure to risk and sets appropriate risk limits to control risk. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the operation of the Group. The Group uses advocacy, management standards and operating procedures to develop a disciplined and constructive control environment, so that all employees understand their roles and obligations.

The Board oversees how management monitors compliance with the Group' s risk management policies and procedures and reviews the adequacy of the risk management framework. The Board is assisted in its supervisory role by the internal audit staff, who undertake both regular and ad hoc reviews of risk management controls and procedures, and report the results of the review to the Board.

3. Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group' s receivables from customers and investment.

1) Accounts receivable and other receivables

The Group' s exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the demographics of the Group' s customer base, including the default risk of the industry in which customers operate, as these factors may have an influence on credit risk. However, geographically there is no concentration of credit risk.

The management has established a credit policy under which each new customer is analyzed individually for creditworthiness before the Group' s standard payment terms and shipping condition are offered. The Group' s review includes external ratings, when available, and in some cases bank references. Credit limits are established for each customer, which represent the maximum open amount without requiring approval from the Chief Exeutive Officer' s office; these limits are reviewed periodically. Customers that fail to meet the Group' s benchmark creditworthiness may transact with the Group only on a cash basis.

In monitoring customer credit risk, customers are grouped according to their credit characteristics, including whether they are an individual or a legal entity, whether they are a wholesale, retail or end-user customer, aging profile, maturity and existence of previous financial difficulties. Customers that are graded as " high risk" are placed on a restricted customer list and monitored by the business department. If customers default, the Group will stop transactions with those customers or trade on a cash basis.

The Group established an allowance for impairment that represents its estimate of incurred losses in respect of trade and other receivables and investments. The main components of this allowance are a specific loss component that relates to individually significant exposures, and the similar portfolio that collective loss incurred but not yet identified. The collective loss allowance is determined based on historical data on payment statistics for similar financial assets.

2) Investment

The credit risk exposure in the bank deposits, fixed income investments and other financial instruments is measured and monitored by the Chief Exeutive Officer's office. The Group only deals with financial institutions, corporations and organizations with a credit rating of investment grade or higher; therefore, there are no significant doubts regarding default on the above financial instruments, and as a result, there is no significant credit risk.

3) Guarantees

The Group's policy is to provide financial guarantees only for transactions involving equity investment that is more than 50% owned, and they should be approved by the Board. Please refer to Note(13)(a).

4. Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

5. Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices, will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

The Group is exposed to currency risk on sales and purchases that are denominated in a currency other than the respective functional currencies of the Group's entities, primarily the TWD, USD, HKD, CNY, THB and JPY. These transactions are denominated in TWD and USD.

(ab) Capital management

The Group meets its objectives for managing capital to safeguard the capacity to continue to operate, to continue to provide a return to shareholders and other related parties, and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Group may adjust the dividend payment to the shareholders, reduce the capital for redistribution to shareholders, issue new shares or sell assets to settle any liabilities.

(ac) Investing and financing activities not affecting current cash flow

The information of insider trading would be available at the Market Observation Post System website.

(14) Segment Information

(a) General information

The Group' s reportable segments are the E-Commerce-Sales segment, Market Place segment, Fintech segment, and other segment. The E-Commerce-Sales segment is the revenue collection from the online platform from the sale of goods. The other segment is the revenue generated from the online platform to provide search engine services, and telecommunication and communication services.

The strategic divisions offer different products and services, and are managed separately because they require different technology and marketing strategies. Most business units charge separately acquisition, and retain the management team at the time of acquisition.

(b) Information about profit or loss, and assets and liabilities

The Group's segment report amounts were consistent with the Group CEO's internal management reports. There was no material inconsistency between the accounting policies of the operating segments and the accounting policies described in note 4. The Group uses operating income as the measurement for segment profit and the basis for performance assessment. The inter-company transaction price was the same as that with other customers. The price was based on the market value.

The Group's regional financial information was as follows:
